## JOKER FOUND IN ARMY DRAFT BILL

POOR TEAMWORK DISPLAYED BETWEEN PRESIDENT AND WAR SECRETARY.

### PROMISES TO REPEAL

Wilson Describes Measure As Too Sweeping—Sentiment Against Conscription Law.

Washington, Jan. 6.—A lack of teamwork between President Wilson and Secretary of War Newton D. Baker is indicated in the publication of Circular No. 21, carrying regulations covering conscription in time of war.

These regulations would call into active service all male citizens between the ages of 18 and 45. They carry out the provisions in the Hay-Chamberlain law which President Wilson described during the recent campaign as "much too sweeping in its terms," and for the repeal of which he promised his aid. The conscription paragraph is known as the "Hayden joker" and has been described by Representative Huddleston, of Alabama, as the "biggest secret in official Washington." It was passed without debate or discussion, and without the knowledge even of the members of the Military Affairs Committee, which supposedly drew the bill.

When President Wilson's attention was called to this paragraph of the law during the campaign, he expressed great surprise and Secretary Tammity was directed to prepare a form letter in which the President's disapproval was expressed. Further the President gave personal assurances to many people that he would see that the joker was repealed at this session of Congress. Representative Huddleston has introduced the repealing bill and Representative Dent, chairman of the Military Committee, has indicated his willingness to cooperate in securing the repeal.

Universal conscription, even in time of war, is a step which the country would take only with deliberation. It is inconceivable that it should be adopted without a word of discussion.

#### Clique Wants Draft.

The regular army clique in the War Department are, of course, strong for it. The more nearly our army can be made to resemble that of Germany the better pleased they are. Conscription, even the limited to war time, is a step in what they consider the right direction.

Circular No. 21, which bears the approval of Secretary Baker, carries the date of November 3, but for some reason it was not promulgated as a general order until December 28. It puts into general orders the provisions of section 79 of the Hay-Chamberlain law, which provides for the formation of reserve organizations to fill gaps in the regular organizations.

The orders say that, "If for any reason there shall not be enough reservists or enough voluntary enlistments to organize or to keep the reserve battalions at the prescribed strength, a sufficient number of the unorganized militia shall be drafted by the President into the service of the United States to maintain such battalions or other lesser reserve unit at the prescribed strength. The object of such reserve battalions or other lesser reserve units is to train recruits and to replace losses or to fill vacancies in active organizations."

The "unorganized militia" here referred to are all male citizens between the ages of 18 and 45. Anybody, and everybody can be grabbed as in Russia or Prussia, and sent to the front.

#### "Draft Riots" Follow.

England hesitated long before resorting to the draft. Official reports show that 4,000,000 men were raised by the volunteer method, and that when conscription finally was resorted to, there were only 500,000 available men left to be conscripted.

During the Civil War practically all the fighting men on both sides were volunteers. Of the 2,859,132 Federal enlistments just 46,000 were added to the ranks by the draft. But the memory of the "draft riots" in many of the principal cities of the

North still is fresh in the minds of thousands still living.

In Nicolay and Hay's Life of Lincoln it is stated that the efforts to use conscription on the Southern side were equally unsuccessful. The Chief of the Bureau of Conscription at Richmond, Va., in a report dated April 30, 1864, "confessed that the system had failed." Why Secretary Baker should have approved the action of the War College and General staff in putting the Hayden joker into general orders nobody can understand. Every step of this sort, the President feels, makes more difficult his task of getting this joker out of the law.

#### Sent \$2,215,000 Home.

Tokio, Jan. 6.—Japanese residents of the United States during the first ten months of the current year remitted \$2,215,000 to their home country. The figures are announced by the Department of Communications.

#### THAW INDICTED.

Youth Tells Relatives New Yorker Threshed Him.

New York, Jan. 9.—Harry K. Thaw was today indicted by the grand jury on three charges of criminally assaulting Fred Gramp, Jr., a high school boy, of Kansas City, Mo. A bench warrant was issued for Thaw's arrest.

Harry K. Thaw, twice tried for the murder of Stanford White and incarcerated at Matteawan Asylum for the Criminal Insane, obtained his release from that institution about a year ago after long litigation and a sensational flight from the hospital.

Thaw is accused in the indictment found to day of enticing Gramp, 16 years old, from Long Beach, Cal., to this city and having assaulted him at a hotel here with a buggy whip on three different occasions.

The assault upon which the indictment is based is alleged to have taken place Christmas night. The boy fled to Kansas City, where he told his relatives of his experience. Frank P. Walsh, a leading lawyer of Kansas City, came to New York and laid the allegations of the boy before District Attorney Swann.

The testimony of the boy and of attaches of the hotel and others was taken and the indictment followed. As soon as the bench warrant was issued a detective started with it for Philadelphia where Thaw is said to be now staying at a hotel.

#### CONSCRIPTED BY BRITISH, KENTUCKIAN SEEKS RELIEF

Lexington, Ky., Jan. 8.—William Haffey, son of Mrs. Josephine Haffey, of this city, has been conscripted into the British army and is trying to secure his freedom, according to a letter received by relatives here. He is now in a training camp in England, preparatory to being sent to the front.

#### VILLA APPEALS TO U. S. FOR FAIR PLAY

New York, Jan. 6.—After an absence of more than a year, accredited representatives of Francisco Villa again have established headquarters here and announcement was made today by John J. Hawes, who is in charge, that events now had shaped themselves so that "frequent and reliable" reports of Villa's movements could be given to the public.

A statement was given out by Mr. Hawes which had been issued by Hippolyte Villa, a brother of Francisco Villa, from San Antonio, Tex., where he lives in exile. In the statement Villa appealed to the "sense of justice and fair play of the American people" in behalf of his brother, whom he declared innocent of all charges that have been brought against him and who "soon will re-establish himself in the admiration of the whole world."

Villa, according to Hawes, has a well equipped army of between 14,000 and 16,000 men and is only awaiting the withdrawal of Gen. Pershing's expedition "to demonstrate his ability to restore order in Northern Mexico."

#### Hughes To Aid Soldiers.

New York, Jan. 7.—Charles E. Hughes will aid in an advisory way. It was learned tonight, in drafting State legislation intended to lower the cost of foodstuffs to the consumer. Mr. Hughes discussed with Gov. Whitman today the present high cost of living.

## WEBB LAW HELD CONSTITUTIONAL

SUPREME COURT DECLARES ACT MAY APPLY IN ITS BROADEST SENSE.

### AFFECTS "DRY" STATES

Prevents Possession and Receipt of Whiskey Shipped By Common Carrier Into Dry Territory.

Washington, Jan. 8.—The Webb-Kenyon law, designed to prevent liquor shipments from "wet" to "dry" States, was today declared constitutional by the Supreme Court by a vote of 7 to 2, which also upheld West Virginia's prohibition amendment prohibiting citizens from receiving liquor for personal use shipped by common carriers in interstate commerce.

It was announced that Justice McReynolds concurred in the decision but not completely in the opinion. Justices Holmes and Vandeventer were the two dissenting Justices.

"The all-reaching power of Government over liquor is settled," said the Chief Justice in announcing the decision. "There was no intention of Congress to forbid individual use of liquor. The purpose of this act was to cut out by the roots the practice of permitting violation of State liquor laws. We can have no doubt that Congress has complete authority to prevent paralyzing of State authorities. Congress exerted a power to co-ordinate the national with the State authority."

#### Upheld in Broadest Sense.

Attorneys for national liquor organizations, who were in court, said the decision upholds and applies the Webb-Kenyon law "in its broadest sense."

Wayne B. Wheeler, counsel for the Anti-Saloon League of America, who with Fred Blue, State prohibition commissioner of West Virginia, argued the case before the court, made this statement on the court's decision:

"The States may now prohibit the possession, receipt, sale and use of intoxicating liquor and not be hampered by the agencies of interstate commerce."

#### Details of Two Cases.

The Federal Webb-Kenyon act of March 1, 1913, and West Virginia's prohibition laws—were brought before the Supreme Court in two test cases of the James Clark Distilling Company, of Cumberland, Md., against the American Express Company, and Western Maryland railroad. Whether prohibition States, under the Webb-Kenyon law or otherwise, may prohibit shipment of intoxicating liquors, in interstate commerce, for personal use of citizens in "dry" territory was the principal question raised.

## EXPECTS TO FLY OVER ATLANTIC

SWEDISH ARMY AVIATOR WILL UNDERTAKE AIR VOYAGE IN TRIPLANE

### TO MAKE TEST IN MAY

Capt. Hugo Sandstedt To Have Personal Supervision Over Craft's Construction.

New York, Jan. 6.—Still another aviator will try the transatlantic flight by air next spring, if his plans mature.

He is Capt. Hugo Sandstedt, of the Swedish army, recently an observer of aerial developments for his country on the western battle front. He will leave for Florida in a few days to supervise the building of a triplane in which he hopes to be the first to sail across the ocean.

Capt. Sandstedt hopes his machine will be ready by the middle of February. He will then spend two months in trial flights and be ready for the big adventure in May or the last of April.

He is Sweden's foremost aviator and holds the record for a long distance flight between Stockholm and Paris, a distance of a thousand miles, during which he was obliged to land but once for fuel.

To undertake to fly across the Atlantic is no small thing," said Capt. Sandstedt today. "It is all very well to be an expert mechanic and have a machine that you understand perfectly, but one of the most important factors in the transatlantic flight is to be able to find your way. It is necessary to fly at a height of not less than 12,000 feet because of the currents of air, and at this altitude, of course, it is impossible to distinguish ships and use them as a guide. It is therefore, imperative that the aviator know something of navigation so that he can act as his own pilot."

"The wind at this height is most trying, for it travels at a minimum velocity of 100 miles an hour, making it extremely difficult to control the machine at all."

Capt. Sandstedt said that the American-made machines now compare very favorably with those of foreign manufacture.

"The big aeroplanes of American make are as good in every way as those made abroad," he said, "but you have not yet reached such perfection in the smaller speed machines. I hoped to make some land flights while here, but I do not think I can get a machine here that would suit my purposes. It is very strange that no one has flown across the continent. I may yet decide to make the attempt myself. Miss Law's flight was wonderful, even for a man."

"The triplane which I mean to use

for my transatlantic flight will have a width of approximately 130 feet and will require three propellers, with two motors of about 160 horsepower to each propeller. I expect to have it built in Florida next month and will do some flying down there before I take it to Newfoundland."

## ENGLISH SHELL CONCERN OUTBIDS AMERICAN FIRMS

Washington, Jan. 4.—Despite the demands upon British munitions plants because of the war, Hadfields, Limited, an English concern, outbid the American companies when the proposals were opened today for sixteen and fourteen inch shells. The English concern offered shells at a price of \$200 each less than any American plant and for delivery in half the time the Americans wanted, the shells delivered here, duty paid.

#### BIG FINANCIAL LEAK.

Millions of Money Sent to Europe by Laborers of this Country.

The claim is made by a close student of the immigration question that not less than \$50,000,000 of the savings of immigrants are sent from the United States to Europe each month, and that the total amount of savings exported during the two years of the war is \$1,200,000,000. The authority for these figures says that this result is due to the constant urging of the "omnipresent" private banker, whose greatest profits lie in foreign exchange. This is not a condition peculiar to the war in Europe, for the savings of foreign laborers have been sent abroad for many years, although it may be said that in a large number of cases the money was used in buying tickets for members of families who were unable to reach the hospitable shores of this country.

Undoubtedly there is great destitution in many parts of Europe, and, in consequence, increasingly large amounts of money are being sent home by foreign laborers in the United States. Perhaps they should be commended rather than censured for providing for their destitute relatives, many of whom have been deprived of all other means of support. Nevertheless, the exportation of \$50,000,000 each month is an enormous drain upon the resources of this country, and if it is to continue any length of time the balance of trade in our favor will not do us a great amount of good, for all the profits will be returned to Europe. We do not know of any cure.—Salt Lake Tribune.

## PULASKI COUNTY VOTES "DRY" BY 2,000 MAJORITY

Somerset, Ky., Jan. 6.—The local option election to-day resulted in victory for the "drys." With sixteen precincts out the majority is 1,500. This will be increased to 2,000 or more when all precincts are in. Somerset went 200 dry. A very light vote was polled.

## BUTLER "NIGHT RIDER" CASES ARE DISMISSED

Howling Green, Ky., Jan. 8.—Judge McKenzie Moss, of the Warren Circuit Court, has dismissed all of the continued "night rider" cases from Butler county, the charges having been settled by fines a few days ago while Judge Moss was holding court at Morgantown. Those whose cases were dismissed were: Earl Holders, Silas and P. C. Jenkins, Hob Hammers, Theron Dorris, "Doc" J. A. and Silas Gardner, Marion Drake, Willie and Thomas Vaughn, George Sweezer and Ben Grubbs.

P. C. Jenkins and George Sweezer were convicted in the Warren Circuit Court about a year ago for banding and confederating together. Jenkins was given four years and Sweezer one year in the penitentiary. Daisy Mason, negro, was given eight years in the penitentiary for robbery.

## NOW ON HONEYMOON PLANNED 31 YEARS AGO

Logansport, Ind., Jan. 6.—Thirty-one years ago Mr. and Mrs. Mamuel Hughes planned their honeymoon. They are now carrying out their plans. Both then lived in the little town of Wolcott. They were engaged but quarreled and parted. Both married, and the mate of each died. Recently Mr. Hughes renewed his thirty-one year old courtship, and the pair are now honeymooning in Oklahoma.

## FIRE RAGES IN FRANKFORT PEN

TWO CONVICTS LOSE LIVES AND OTHERS INJURED WHEN FLAMES BREAK OUT.

### HEROIC RESCUES MADE

Firemen And Fellow Prisoners Work Faithfully And Save Trapped Negroes.

Frankfort, Ky., Jan. 8.—Dave Elfo, of Lexington, and Bill Jones, of Owensville, negro prisoners, died of suffocation in a fire that burned everything inflammable in cell house 8, of the reformatory, to-night. About fifty prisoners were taken out by rescue parties that dug a hole in the wall and climbed ladders to the upper tiers of cells. By climbing along planks laid on the steel beams, they took the men out of their cells and slid them down to waiting arms below. In order to save half a dozen of the men the rescuers dug through the partition into another corridor.

All the men were negroes. Will Jones, of Winchester, is in a serious condition, the flesh being burned off both his legs. All the prisoners were suffering severely from the shock, but physicians said they thought all the rest will recover.

The fire supposed to have started from defective wiring near the roof, was first discovered in the cell-house. The alarm was given by the power house whistle, which turned out the prison department. The city fire alarm sounded a few minutes later and the city department ran alongside the walls and joined the prison fire department.

#### Pray For Help.

By that time the fire had spread along the roof of the cellhouse and pandemonium reigned. Prisoners locked in, were praying and screaming for help.

As quickly as possible, prisoners assisting the turnkeys, cells were unlocked, the antiquated cellhouse having no modern appliances by which all the cells can be unlocked at once. The men rushed out of the cellhouse pell-mell when released, but discipline was quickly brought to bear in the yard and the men, excepting those actually fighting the fire, were herded into the dining room and chapel.

The heat and smoke drove the men from the corridors, leaving half a hundred crazed negroes on walks 11 and 12. The white men from cellhouse B, who have to enter through the old cellhouse, were rescued through a window, the bars of which were pried apart.

It was more than an hour after the fire was discovered that it was sufficiently under control for the work of rescue to be resumed. The cellhouse is 120 years old, and the wooden beams, time dried, and the wooden walks in front of the four tiers burned like tinder. As portions of the roof fell, from time to time, carrying down with it the charred timbers of the walks, it was believed those left within could not be alive.

## FIFTEEN CHILDREN ARE KILLED BY A TORNADO

Muskogee, Okla., Jan. 4.—Only one out of fifty children in a frame school house near Blocker, escaped injury late today when a tornado shattered the building. Late reports indicate that fifteen children, mostly girls, were killed. A woman teacher is missing. Persons living in the neighborhood believe she was killed and her body blown away.

## Upholds Medical Law.

Washington, Jan. 8.—Without deciding constitutional questions the Supreme Court Monday affirming refusal of California federal courts to enforce enforcement of California's medical practice law requiring licensing of "drugless" practitioners. The law exempts Christian Scientists. The ruling leaves it in full force and operation.

The court also dismissed an appeal attacking validity of California's law regulating practice of optometry and requiring licensing of "drugless" optometrists, but exempting regularly licensed physicians and surgeons.

FRIDAY, JANUARY 12

Although Harry K. is usually in hot water it seems that he will never thaw out.

Since it is a certainty that whiskey will be voted out of Washington let's call it Drycleaning.

Villa's brother says Villa will soon again command respect. Let some of it get under his control and he would try to command it.

With the rivers over bank full and covering most of the low land it is either up to the rabbits to take backwater or the back water to take rabbits.

The Suffragists threaten to place "silent pickets" around the White House in order to keep the President at all times reminded of their cause. They may put out the pickets but who ever heard of a woman being silent very long at a time?

Not only boys in all parts of the United States but grown-ups, as well, will mourn the passing of Col. William F. Cody, probably more generally known as "Buffalo Bill." Col. Cody was the idol of many an American boy and his example of courage even to the last minutes of his life is worth much to our youth.

If information was given to advantage of the sending of the recent peace note the scandal should be thoroughly aired and the guilty ones properly exposed and we see no reason why the investigation should be ended with little accomplished one way or another. The accusations against Secretary Tamm appear to be groundless, but if there are others who did tip Wall Street the public wants to know their names and vocations.

"Nick Carter," who has furnished many a thrill and caused boys to exclude themselves in one of the way places for adventures with New York detectives, is dead. Reformers severely criticized "Nick Carter's" books saying they were responsible at times for the dare-devil outbreaks of boys, but there was another side to the writer's life. He himself, it is said, was a most peaceful, highly respected citizen and his books were not full of the half-rationalized "Harvey Rathbone" type of exploits, but handled it to the American boy. The "Nick Carter" books led to countless imitations more than made by "Harvey Rathbone" and "Nick Carter" and "Harvey Rathbone" were the same Alfred H. Tizer.

### GERARD'S BERLIN ADDRESS.

Not all reports coming from Germany in these days of war are to be relied upon. We hope the one furnished by Mr. Gerard's diplomatic channel is untrue.

A reception was given by the Minister upon his return to Germany and in his address upon that occasion Mr. Gerard is quoted as saying that the good relations of America were largely dependent upon the present character of the present army organization, adding that if there is any change the relations might be disturbed. Such a statement is a display of extreme diplomatic ignorance that even a school boy should quickly recognize as such.

Mr. Gerard is reported as saying further that the relations of Germany and America were never so cordial as they are today. If this be true the American people are surely deceived; if it be true it should not be impressed upon Germany by America's representative in that country. The people of the United States believe to the contrary that our relations with Germany are strained. Why shouldn't they when the leader of the Triple Alliance has acted toward us with such a spirit of indifference?

German papers commenting upon Mr. Gerard's address characterize his statements as unwise, but if the

reports are verified America will have a little more to say.

### BACK TO WILDS WHERE WOMAN IS RESPECTED

New York, Jan. 8.—Dr. Leonard S. Sugden, war surgeon, hunter, whaler and all-round soldier of fortune, was preparing today to return to Alaska—back where they treat women with some respect, where people don't rush for the mere sake of rushing, and where there aren't so many contracts.

Dr. Sugden was a ship's surgeon in the Russo-Japanese war, and has set foot in most of the ports of the seven seas, but no New York for him. He has spent the holidays here.

"I'm cured," he said. "I'm going back to Alaska. Why, the Yukon stampede never had anything on the New York subway. And the way New York treats its women. Why, in the far North, where life is supposed to be rough, no painted lady ever was handled so roughly as the women in New York cars and subways."

"The law of the wild things ever respects the female—New York civilization doesn't."

### MOUNTAIN PUBLISHERS MAY MAKE OWN PAPER

Middlesboro, Ky., Jan. 8. H. C. Chappell, of Middlesboro, Ky., has written twenty-five small publishers in Kentucky, Tennessee and Virginia to meet in Middlesboro on Saturday morning, January 20, for the purpose of making some effort to establish a paper pulp mill near Middlesboro, to manufacture newsprint paper for the small papers in Kentucky, Tennessee and Virginia.

All other publishers not included in the written invitation are urged to attend, and if their business is such that they cannot attend, they are requested to write letters to Mr. Chappell, stating the amount of print paper they use in one year, the price paid for same one year ago, and what they are paying to-day and any other information and encouragement they may deem necessary and profitable for this meeting.

Paper has gone up in the last year from 2 1/2 to 8 cents per pound and the organization of this kind is the only solution of the newsprint paper situation. The pine and other pulp producing woods of this section will supply a mill of fifty-ton or more capacity for several years and will for this section solve the solution of being forced to pay trust prices for print paper. The excess price being paid for print paper by the small publishers in the three States above mentioned will, it is estimated in a year over pay for the construction of a paper pulp mill.

### U. S. TO BUILD ZEPPELIN TYPE AIRSHIP AT ONCE

Washington, Jan. 9.—Ordnance and aircraft innovations designed from lines developed by European engineers have been authorized by both War and Navy Departments.

They include Zeppelin type airships, large caliber mobile rifles and howitzers to be mounted on railroad trucks for the coast defense or handled by tractor engines over country roads.

Secretary Daniels announced today that the "Zeppelin" would be constructed at once, but rather than to build the craft was reached after an exhaustive study of the question of right airships by a joint committee of officers representing the aeronautical branches of both services, the general staff of the army and the general board of the navy, which recommended that construction be undertaken at once.

The recommendations have been approved by Secretary Daniels and Baker and the cost will be equally divided between the army and navy.

Army ordnance plants are already building at the Watervliet arsenal, N. Y., pilot guns of the 16 and 12-inch howitzer. Plans are practically completed also for 14-inch high-power rifle with cartridges for mounting on railroad trucks.

### Bad Habits.

Those who breakfast at eight o'clock or later, lunch at twelve and have dinner at six are almost certain to be troubled with indigestion. They do not allow time for one meal to digest before taking another. Not less than five hours should elapse between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick recovery. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.

## SENATE PASSES SHEPPARD BILL

DISTRICT OF COLUMBIA WILL BE "DRY" AFTER THE FIRST OF NOVEMBER, 1917.

### FOR PERSONAL USE ONLY

No Liquor To Be Sold In The National Capital—Referendum Is Defeated.

Washington, Jan. 9.—Following closely on the heels of the decision of the Supreme Court of the United States, of the validity of the Webb-Kenyon law, the Senate today, by a vote of 55 to 32, after it had defeated the Underwood amendment to submit the question of prohibition of liquor in the National Capital to the residents of the District of Columbia, adopted the Sheppard Bill to make the District "dry." The vote was no surprise to those who have watched the progress of the anti-liquor legislation in the Senate during the last few weeks.

It is pretty generally understood that if Vice President Marshall, who, with Mrs. Marshall, is visiting near Phoenix, Ariz., had been in the chair instead of Senator Sutherland of Iowa, the newly elected President at present, the Underwood amendment, providing that the liquor question be left to the people who make their home in the National Capital, would have carried. The Vice President for it he knew before his departure for the holidays that he favored the Underwood amendment and that in the event of a tie vote he would support the referendum measures. As it was the vote on the Underwood amendment was 43 to 43, Senator Sutherland's vote for it making the tie.

### Kentuckians Divided.

The two Kentucky Senators divided on the vote to submit the District prohibition question to the voters of the National Capital. Senator Obbo M. James, one of the Administration's leaders, voted for the Underwood referendum. His colleague, Senator McClure, opposed it. On the final vote on the Sheppard Bill to make the District "dry" Senator James opposed the measure and Senator McClure supported it.

Before the final vote was taken Senator Marshall, of New Jersey, offered an amendment to the Sheppard Bill providing that the purchase, sale and use of tobacco in the District of Columbia should be prohibited. Senator James rose in his seat and insisted that the amendment was out of order. His motion was sustained and the Marshall amendment was thrown out.

The Sheppard Bill now goes to the House. In the event it passes, that body, which is not at all certain at this time, it may turn out that the President will veto the measure. None of authority could be found to-day who would predict with any degree of certainty what attitude the President would take in regard to the Sheppard Bill. It is submitted to him during this, the final session of the Sixty-fourth Congress.

### Vote on Passage.

The vote on passage follows:  
Ayes: Democrats: Ashurst, Bacon, Bryan, Chamberlain, Chilton, Johnson, of South Dakota; Kern, Kirby, Lee, Meritt, Meyers, Sherman, Pittman, Russell, Sutherland, Steiwer, Smith, of Georgia; Smith, of Maryland; Smith, of South Carolina; Stevenson, Thomas, Thompson, Vandenberg, Walsh, Williams. 28.  
Republicans: Bond, Brady, Clegg, Clark, Crampton, Curtis, Hittchcock, Hughes, Hastings, James, Johnson, of Maine; Lee, Lewis, Marshall, Newlands, O'Gorman, Phelan, Pomeroy, Reed, Sutherland, Smith, of Arizona; Stone, Tamm, Underwood. 22.

Republicans: Bond, Brady, Clegg, Clark, Crampton, Curtis, Hittchcock, Hughes, Hastings, James, Johnson, of Maine; Lee, Lewis, Marshall, Newlands, O'Gorman, Phelan, Pomeroy, Reed, Sutherland, Smith, of Arizona; Stone, Tamm, Underwood. 22.

### and Social Events.

Mr. Flins Rowe, of Stockport, was here Monday.

R. D. Walker is indisposed and unable to be out.

Mr. M. Dean was in Owensboro Sunday and Monday.

Mr. J. P. Stevens is seriously ill of uremic poisoning.

Mrs. Emma Schroeter is visiting relatives in Heaven Dam.

Dr. E. P. Rogers, of Fordsville, was in Hartford yesterday.

Miss Willie Smith visited in Louisville from Sunday until Tuesday.

Mr. C. O. Hunter and Mrs. Hunter were in Owensboro Wednesday.

For Sale—House and lot in Hartford. Cheap at \$350. Apply at this office.

Mrs. Ollie Barnett left Monday for an extended visit to relatives in Owensboro.

Mrs. Martha Ross has returned from an extended visit to relatives in Elizabethtown.

Mrs. T. L. Griffin has returned from an extended visit to relatives near Owensboro.

Esq. Ed Shown qualified as guardian of Clay E. Mary E. and Flora C. Shown Jan. 5.

Mr. T. R. Barnard, cashier of the Island Deposit Bank, was here yesterday on business.

All work and no play makes Jack a dull boy. Attend the social given by the ladies of class 14, M. E. Sunday School, at the residence of Mrs. C. M. Barnett, Tuesday afternoon. No admission charged, but if you feel hurt an opportunity will be offered you to make a small contribution.

The Big Profit Sparing Sale of E. P. Barnes & Bro., Denver Dam, will begin next Thursday and continue until January 31. Some attractive bargains are offered by this progressive firm and it will pay prospective shoppers to read carefully the two-page ad appearing on pages 4 and 5 of this issue.

Mrs. P. O. McKenney and son, Oliver, and Mrs. E. L. Dupuy, of Rockport, visited their aunt and uncle, Mr. and Mrs. H. H. Gillespie, during the holidays. Mrs. McKenney was quite ill for several days but is improving now and will leave Wednesday with her husband for the City Hospital at Owensboro.

Mr. M. T. Likens Wednesday purchased the farm formerly belonging to Mr. J. D. Baugh on the Heaven Dam road. It is understood that a consideration of \$2,500 was given, the implements going with the farm. Mr. Baugh and family will likely leave Hartford but it is not known where they will make their home in the future.

Mr. S. M. James, of Selet, had a narrow escape from death at his own hands when he came near drinking a quantity of carbolic acid one day this week. The acid was mistaken for a bottle of medicine prescribed by his physician and the error was discovered only when the poison touched the tongue, causing a burning sensation.

Miss Marian Holbrook entertained a few of her friends at "five-hundred" Wednesday evening. A delightful lunch was served, the following partaking of the dainties: Misses Gertrude Flenner, Winnie Davis Simmerman, Lella Glenn and Marian Holbrook; Messrs. McDowell Fogie, Henderson Murphree, Cecil Felix and Allison Barnett.

As intimated in The Republican last week suit was filed by the Ross-Vaughn Tobacco Co., of Owensboro, in the Ohio Circuit Court here Saturday against R. E. Massey and S. B. Lee, also of Owensboro, alleging malicious interference with contracts. \$40,000 damage is asked by the plaintiffs and also an injunction restraining the defendants from purchasing tobacco from the growers with whom they have negotiated in the Green River District. W. F. Ellis and J. J. Sweeney, of Owensboro, and Judge J. S. Glenn and Barnes & Smith, of Hartford, represent the Ross-Vaughn Company.

Mr. Herbert Chinn, of this city, is the owner of a duck distinctively unlike any of its species. The peculiarity of this duck is her absolute fear of water. The bird was hatched and mothered by a hen and was undoubtedly taught in its youth that water was unfit for even a beverage. Mr. Chinn lives near Rough river and when the back water approached the house recently Miss Duck became panic stricken and sought shelter upon higher ground while a large flock of her kind enjoyed a quite plunge almost within sight. She at all times employed the most particular precaution to keep even the bottom of her dainty feet from getting wet.

## POSTPONE ARGUMENTS IN GOVERNORSHIP FIGHT

Phoenix, Ariz., Jan. 9.—By agreement of attorneys, further arguments in the Arizona Supreme Court in the mandamus proceedings brought by Gov. Campbell to compel Gov. Hunt to give up possession of the Executive offices were postponed until Thursday.

The State Legislature met Monday. Both Gov. Hunt and Gov. Campbell were in the Capitol, but neither was invited to present a message or address the Legislature. The anti-Hunt wing of the Democratic party organized both houses by electing a President of the Senate and Speaker of the House.

## SUFFRAGISTS WILL PICKET WHITE HOUSE

Washington, Jan. 9.—Woman suffragists, after another futile appeal to President Wilson to-day for his support of the Susan B. Anthony amendment, announced plans for retaliation by picketing the White House grounds with "silent sentinels." Their purpose is to make it impossible for the President to enter or leave the White House without encountering a sentinel bearing some device pleading the suffrage cause.

The move was acknowledged to be a step in the new policy of mild militancy, which began with the coup in the House gallery December 5, when a party of suffragists unfurled a Votes for Women banner while the President was making his opening address.

## CALLOWAY MOB MAKES THREATS ON OFFICERS

CIRCUIT JUDGE AND PROSECUTOR ENDANGERED—STANLEY FACES MOB.

Murray, Ky., Jan. 11.—Governor Stanley this morning arrived here on a special train to take charge of the situation which promised last night to result in bloodshed, owing to the demand of a mob that Lube Martin, the negro accused of killing Policeman Duiguid, be tried immediately, and the notion of Judge Bush in ordering the negro spirited out of town.

This action of the Judge so angered the mob that threats against the Judge and Prosecutor Smith were made, and it was necessary for the Judge to promise that the trial would be held this morning in order to prevent an attack.

Shortly after the arrival of the Governor this morning he addressed a crowd in the courthouse, urging them to allow the law to take its course. He declared that he would protect the officials and the negro with his own life, if necessary, and asked that the mob disperse.

His remarks were met with howls from the mob of "give use the negro," but the Governor showed no signs of fear, and insisted that the negro, who is still in the Paducah jail, would not be returned until arrangements were made for the safe conduct of the trial.

## DYING SOLDIER TELLS FIANCEE TO WED ANOTHER

Berlin, Jan. 6.—The Vossche edition publishes the last will of Lieut. Otto Hegerer, a German reservist, killed on the Somme. When the war broke out the officer was about to be married and had to leave for the front on the eve of his wedding day. Since then he has made many vain efforts to obtain a short furlough, but he only succeeded early this month. As he was leaving the trenches to hasten home and to lead his fiancée to the altar, a British shell tore off both his legs. He was brought to the field hospital behind the front in a dying condition and when the surgeons informed him that his death was but a question of a few hours he dictated his testament, which makes his fiancée the sole heir of his fortune of several hundred thousand dollars. To his will he attached the following letter:

"My love, in the last hour of my life, I want to tell you that I am dying for my country and do not complain about my fate. Do not mourn my death. My wish is that you marry some honest man, if possible, a war invalid, for whom you may make life pleasant with your love and the money I leave to you. I do not want you to remain single, because the fatherland needs the children of noble mothers after this cruel war. From heaven I will watch over you and bless your little ones as if they were my own children."

## Sloan's Liniment Eases Pain.

Sloan's Liniment is first thought of mothers for bumps, bruises and sprains that are continually happening to children. It quickly penetrates and soothes without rubbing. Cleaner and more effective than muscay plasters or ointments. For rheumatic aches, neuralgia pain and that grippy soreness after colds, Sloan's Liniment gives prompt relief. Have a bottle handy for bruises, strains, sprains and all external pain. For the thousands whose work calls them outdoors, the pains and aches following exposure are relieved by Sloan's Liniment. # OUR Store Policy

**Pleases Our Younger as Well as Our Older Patrons.**

We take the same pains to please the most youthful of our customers that we use to win the approval of their elders. It is, as it has been our purpose to make frank, fair dealing the permanent foundation of our success, this kind of honest, four-square treatment which makes it a pleasure to buy merchandise in our store and gives you the comforting assurance of the best possible values for your money. It is a pursuance of this policy of the square deal, backed by our ability to buy right, on which we base our claim to your patronage.

Having just closed the year 1916, one of the best since the history of our business, we take this opportunity to thank each and every one who has contributed in any way, and asking a continuance for the year 1917, we are yours for good values.

# Profit-Sharing Sale!

Begins Thursday, Jan. 18—Closes Wednesday, Jan. 31.

To Share in the Profits You Must Pay Cash or Produce Checks for Your Purchases.  
Merchandise Charged Will Be At Regular Prices.

**BUY NOW,** before we are compelled to charge you 20 to 33 $\frac{1}{3}$  per cent. advance on your immediate INVEST YOUR MONEY in merchandise you need now and will need next season for yourself and family.

We have been supplying your needs with merchandise we bought at much lower prices than are ruling to-day. We have generously given you the benefit of these early purchases, and have all along only asked you the advances we have had to pay. BUT THAT SUPPLY IS EXHAUSTED, AND FOR TWO WEEKS MORE ONLY we will give you an opportunity to share in the profits by maintaining the ruling prices in force prior to January 1, 1917, which will mean an average saving to you of at least 25 per cent.

With Raw Cotton around 20c per lb., Wool in the grease 45c per lb., Raw Silk more than double the legitimate price in normal times, with everything that enters into the manufacturing of the product of the looms from 50 to 1,000 per cent. higher, it is utterly impossible to think of anything else but much higher prices for Piece Goods, Clothing, Ready-to-Wear, Shoes, Hosiery, Underwear. In fact, nothing we wear will escape. Not since the civil war has such high prices prevailed, and it's war that's the cause of the high prices to-day. Furthermore the demand is much greater than the supply. The retailer is not only confronted with high-priced merchandise, but can we get as much merchandise as we can sell even at the advance prices?

Consider Wisely These Conditions and take warning. This is your last opportunity to buy first quality Fleece and Ribbed Underwear at 50c for garments that are worth to-day 75c per garment. Ladies' Men's and Children's Hose for 10c per pair. All classes of knit goods are 50 per cent. higher and all standard mills have sold their entire production of 1917 on this basis. We have supplemented our regular stock with thousands of yards of Loom-End Calicoes, Gingham, Percals, Poplins, Crepes, White Goods, Silks, Towels, Organdies, India Linens, Voiles, and many other good things that will appeal to the prudent buyer.

PROPOUND THESE TWO QUESTIONS TO YOURSELF: Shall I buy now and save money, or shall I wait and pay more.

#### SHOE DEPARTMENT.

There is no department in this store where you can save more actual money than in the Shoe Department. It sounds absolutely unreasonable and ridiculous to hear shoe manufacturers talk about the shoe and leather conditions. Yet we realize more and more every time we buy shoes that their statements are rapidly coming true. We have already seen an advance of from \$1.00 to \$2.50 per pair on medium and high grade shoes. They are not in our stock yet but as soon as this sale closes and our inventory is taken the last shipment must be stocked.

#### MILLINERY DEPARTMENT.

As usual this season of the year we have a regular clean up in this department. We have prepared a lot of special Hats for this sale and the price won't be over one-half of their real value. Some stylish Velvet Trimmed Hats that will surprise you when you see the hat and hear the price. Our loss is your gain. We must make room for the coming spring season.

### STRAY STREAKS.

(By Fluke McFluke.)

Pays to Advertise.

A patron of this paper came into the office one day this week and arranged to advertise his farm for sale and before the foreman could get the matter into type the party sold the said farm. How's that for quick results?

Ernest Birkhead says he undertook to watch the moon in eclipse the other night, but he'd be boned if he could tell just which one was eclipsed. Birk says that on these things should take place in the day time, and his wife said amen.

If our wife decides to leave us, sues us for divorce and the court allows her "all our money," she will undoubtedly have to wait for the jitney bus if she gets as far away as Beaver Dam.

With a Goodman in the rear and the new Coombs they have up front, the Hartford Herald should present a lot of good straight stuff.

We are not disposed to bring at all, but all you know that we have a real live Duke, to say nothing of a fairly good Pearl, in this joint?

The spread of the dry wave, due to that decision of the Supreme Court, is a hard jolt to those old guys who continuously tote a danger signal in the center of their mugs, almost sufficient to flag the fastest train on the M. H. & E.

Speaking of Trains.

By the way, did you know that the best train to Ellmitch is the evening train? And should you wish to go south or rather west as far as Simlithous we would advise you to take the morning train.

Tappan, the Silver Smith, says when he fixes a clock he don't like to have too much wait about it.

Note—Fluke reports that he saw a hen swimming in the back water the other day as unconcerned as the duckiest duck. According to his story she was laying up a supply of fish before beginning her flight to the south. Fluke said he couldn't tell whether or not the chicken had webbed feet, but was sure it was a common Plymouth Rock hen.

### SUFFRAGISTS INVADE

White House Again And Ask Aid Of President.

Washington, Jan. 9.—Renewed pleas to President Wilson to support the Constitutional Amendment for woman suffrage were made at the White House to-day by a delegation of 300 members of the Constitutional Union for Woman Suffrage, who presented memorials on the recent death of Mrs. Inez Milholland Boissevain.

President Wilson told the women he could not understand why more suffragists did not realize that the Democratic party was doing more for them than the Republican party. He said he had always done his best for the movement and would continue to do his best.

Miss Maude Younger and Mrs. Sarah Field, spokesmen for the delegation, urged the President to lend his support to the pending constitutional amendment for suffrage and give up his opposition.

The President replied he had not expected to listen to an appeal on that question, but rather to receive the memorials on Mrs. Boissevain's death. He further was not prepared to go any further than he had, adding that he was the leader of a party which had not endorsed the amendment.

"The Democratic party is more inclined than the great opposition party to help the suffrage cause," said the President. "It seems to me that many women have misunderstood this fact. I have always done my best and shall continue to do my best for this cause in which I believe."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Parting of the Ways.

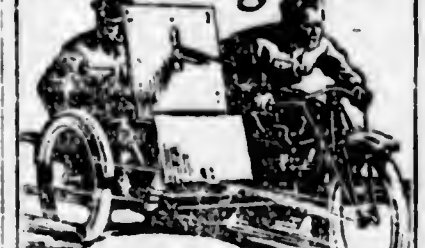

Our danger today is that we should mislead our weakness virtue. It is easy to think and call it unselfishness. We can make for our want of manly enterprise a pretentious mask of humanitarianism. But this will not change the fact of our condition. We

are, indeed, at the parting of the ways. We must choose whether we are to be a nation of power, walking ahead in our strength, living to the full, or a nation that lives intensively, following the course of caution, always saving, not spending. The tremendous influence of women in American nationhood is going to have a profound effect upon the course of the national destiny. But it is not necessary to conclude from this that our future is to be controlled by what we have called the feminine conception of life.—Chicago Tribune.

### FAVORS INCREASE IN PENSIONS OF WIDOWS

LANGLEY WOULD ALSO EXTEND SCOPE TO THOSE WHO HAVE REMARRIED.

Washington, Jan. 6.—Representative John W. Langley introduced in the House today a bill to amend the Ashbrook widows' pension act, which, in addition to increasing the pensions of widows of soldiers and sailors of the War Between the States who already had a pensionable status, from \$12 to \$20 a month, changed from June 27, 1890, to June 27, 1905, as the limitation as to the date of the widow's marriage to the soldier or sailor in order to entitle her to pension, provides also for the restoration to the rolls of widows whose pension had been barred by a subsequent marriage and had again become a widow or had been divorced from her second husband on her own motion and without fault on her own part.

The Kentuckian, who is the ranking Republican on the Committee on Invalid Pensions, contends that it was the purpose of the committee, and of Congress, to confer a pensionable status upon those widows whose marriage to the soldier or sailor occurred prior to June 27, 1890, but subsequent to June 27, 1890, and who had remarried and the second marriage terminated as stated. The Commissioner of Pensions has ruled, however, that the Ashbrook act does not reach this class of cases, but is confined to the cases of remarried widows who married the soldier or sailor prior to June 27, 1890. His bill is designed to remedy this defect in the law, if the commissioner's ruling is correct. He contends that there is no reason whatever for exempting them from the benefits of the act.

## Wagons! Wagons! Wagons!

Before you buy you should examine our hand made farm wagons. They run lighter, are made of the very best material and last far longer than any machine made wagon you can buy no matter what price you pay.

We also do all kinds of Blacksmithing and Repairing, especially the hard jobs the other fellow can't do.

We also make a specialty of Horseshoeing and earnestly solicit your patronage in this line.

**Neglected Colds Grow Worse.**  
A cough that racks and irritates the throat may lead to a serious chronic cough. If neglected, the healing pine balsam in Dr. Bell's Pine Tar Honey—Nature's own remedy—will soothe and relieve the irritation, breathing will be easier, and the antiseptic properties will kill the germ which retarded healing. Have it handy for croup, sore throat and chronic bronchial affections. Get a bottle today. Pleasant to take. At all Druggists, 25c.

**The Habit of Taking Cold.**  
With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold sponge bath every morning when you first get out of bed—not too cold, but a temperature of about 90 degrees F. Also sleep with your window up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.

## It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill."

I wish every suffering woman would give

## To Cattle Feeders

Your attention is called to this important statement from the pen of the Hon. W. T. Ellis, of Owensboro, Ky.

W. T. Ellis,  
Attorney-at-Law,  
Owensboro, Ky.

Glenmore Distilleries Co.,  
Owensboro, Ky.

Dec. 22, 1916.

Gentlemen:

I have fed your dried grains both to my horses and to my cows, regularly, for more than five years past, and will say that your dried grains are the best and most nutritious food I have ever fed, either to my horses or to my cows.

Before I began to feed your grains, I fed my milk cows on bran and corn chops mixed, but your grains take the place of both bran and corn chops.

My cows always do beautifully when fed on your dried grains, and my experience enables me to say that no better food can be had, either for horses or milk cows.

I believe whoever fairly tests your dried grains will find that they are the very best food on the market for both horses and cows, but especially for milk cows.

Yours very truly,

W. T. ELLIS.

Write us for full information, prices, etc. You will want Glenmore Dried Grains for your stock.

## \$50,000,000 LOAN IS ISSUED TO GERMANY

SECRET DEAL MADE TO HELP EMPIRE MOBILIZE HUGE WOOL SUPPLY.

New York, Jan. 7.—Germany has obtained a secret loan of \$50,000,000 from New York banks. It was learned today to mobilize a huge supply of South American wool here for shipment to the central empire the moment the war ends.

This loan arrangement, which has been carefully guarded, explains several peculiar operations of the British government in the Argentine within the last two weeks. British banks in South America were first forbidden to handle gold shipments from New York. Then British insurance companies were prohibited from insuring such gold shipments and finally British boats were forbidden to carry the gold.

The object of the British government was to stop the payment for the German wool, \$40,000,000 worth of which has been bought on the sheep's back in the Argentine.

### Farm For Sale.

I desire to sell my farm of 75 acres, located on the Hartford and Melleny public road, 2 miles from Melleny, one mile from Hartford and Centertown Pike. Three good wells of water, plenty of fruit for family use, fairly good buildings, 20 acres in woodland, balance cleared of which 20 acres is bottom land. Will sell at a bargain. Change in occupation only reason for selling.

### The Sunday School Lesson.

A visitor to a Sunday School was asked to address a few remarks to the children. He took the familiar theme of the children who mocked Elsha on his journey to Bethel—how the young ones taunted the prophet, and how they were punished when two she bears came out of the wood and ate forty and two of them.

"And now, children," said he, "what does this story show?"

"Please, sir," came from a little girl in the front row, "it shows how many children two she bears can hold!" Th-Bits.

### THE CHINESE CONCEPT OF THE GOLDEN RULE

The foundation for all the Confucian teachings on human relations, writes Miles M. Dawson in Case and Comment, is set forth in the "Analects" as follows: "What I do not wish men to do to me, I also wish not to do to men," and in another place, "What you do not want done to yourself, do not do to others!"

This which we Occidentals call "the golden rule" is the fundamental concept of justice underlying all Chinese jurisprudence. From it, and not from special commands or direct texts, is derived the "Thou shalt not kill," etc., of the Chinese law. This is "the Great Learning" in

explicated on as follows: "What a man dislikes in those who are over him, let him not display toward those who are under him; what he dislikes in those who are under him, let him not display toward those who are over him. What he hates in those who are ahead of him, let him not therewith precede those who are behind him; and what he hates in those who are behind him, let him not therewith pursue those who are ahead of him! What he hates to receive upon the right, let him not bestow upon the left; and what he hates to receive upon the left, let him not bestow upon the right! This is called the standard, by which, as by a measuring square, to regulate one's conduct."

Confucius did not go the length of the adage, "Love thine enemies!" but, when once questioned concerning this, answered, "With what then will you recompense kindness? Recompense injury with justice and recompense kindness with kindness!"

Yet, in the "Analects" Confucius is reported to have defined the admirable virtue of benevolence, "It is to love all men."

### MOLAR OF PREHISTORIC GIANT FOUND IN MINE

Pittsburg, Kan., Jan. 6.—Can you imagine a prehistoric man whose tooth would weigh four ounces, a tooth which would take a wire cable to pull? Such a tooth has been found in a coal bed, more than 600 feet under the ground. The tooth was found two miles northwest of Pittsburg, in a coal mine. Dentists claim that, because of certain formations, it could be nothing but a grinder from the head of a prehistoric man. While it is light and appears to be bone, it is in a perfect state of petrification.

The prehistoric giant who had such a tooth, easily could have opened his mouth twelve inches wide. He must have been about twelve feet in height and able to have taken a six-foot step.

It is practically impossible to determine at what age this man lived, but it must have been many years before the birth of Christ, because of the depth at which the tooth was found. However, it is possible that the molar could have been placed that deep in mother earth by an upheaval at some time.

The coal mine in which it was found has been in operation many years and is one of the deepest in the country.

Many persons at first believed the tooth was that of a prehistoric animal rather than of a man. However, it was taken to several dentists, who said that, because of certain formations in the human tooth which are absent in teeth of animals, the molar must have been that of a prehistoric human being.

## INTERVENTION WITH SCHOOLS PROPOSED

LEADING EDUCATORS URGE THAT MEXICANS BE EDUCATED BY AMERICA.

Cincinnati, O., Jan. 7.—Intervention in Mexico, not with arms but by free, public, non-sectarian schools was recommended in a report issued tonight by a self-constituted committee of Americans of national reputation as educators or publicists. This committee began studying Mexican conditions about a year and a half ago. Its conclusion were summarized as follows:

"The chaos existing in Mexico is due to variety of racial elements; woeful lack of general education; still greater lack of political experience, and race prejudice and cupidity of the educated leaders, and, in a few instances, of intelligent uneducated."

To make educational intervention effective the committee recommended establishment of a non-sectarian college modeled after the Roberts College in Constantinople. The recommendation does not say what agency should establish such a college, except that it should have the backing of the American people.

Lack of intelligence and true leadership, says the report, have thwarted attainment of liberty in Mexican revolutions.

### PAINTY PERHUME IS TELL-TALE EVIDENCE

New York, Jan. 6.—The latest argument for marital relief that has interested the New York courts originated with a woman who is suing for separation from her spouse, and brings forward evidence, acquired by her sense of smell.

She declares that her husband on specified occasions gained on the shoulder of his coat the odor of a certain floral extract that was not contained in any of the bottles on her dressing table, and that at times his cheek harbored the faint trace of a particular scent that it received neither from the caress of her fingertips nor the touch of her lips. Pending the time when her sensitive nostrils will enable her to learn more about the user of the perfume that her husband inadvertently brought home, she asks of the court substantial alimony and counsel fees.

Back in one of the courts of the town there was said to be men who could tell to which woman in a hundred a lost handkerchief belonged by the scent it possessed but not in modern temples of justice have we known of momentous decisions hang-

ing on carelessly home-born traces of perfume. In some instances, of course, husbands have been condemned by their wives' nostrils but in these cases the odor has been confined to their lips and was not acquired thru dainty associations. When this new case comes up for a hearing, if it can be called a hearing, it is likely to bring out an unusual line of expert testimony, and his verdict will be waited on what might be regarded as intangible evidence. The jury is to be commiserated with, and if a decision is arrived at many may regard the precedent established as distinctly dangerous.

### A Slight Job.

"As for me," remarked young Mugsy, "I don't believe in a higher education for the fair sex. The one I marry won't know Latin or Greek."

"I can readily believe that," rejoined Miss Cutting. "A girl who knows anything at all wouldn't marry you."

### FOG BELLS TO WARN MOUNTAIN CLIMBER

Denver, Colo., Jan. 6.—Travelers accustomed to the sound of fog bells on the Atlantic or Pacific coast will be amazed, perchance, to hear the warning ring next Summer from 10,000 to 14,000 feet above sea level in the Rocky Mountains.

The tragic end of the Rev. Thornton R. Sampson, of Texas, who on September 6, 1915, disappeared in the Rocky Mountain National Park while on a walking tour, has resulted in plans to safeguard the precipitous and dangerous trails of the park.

L. C. Way, supervisor of the Colorado playground, has devised the plan of having fog bells scattered along the trails at intervals from a quarter to a half mile apart on Flat Top, Long's Peak. The bells will be of deep tone and will be operated by a system similar to weather vanes.

The bells will be placed on posts about seven feet high. Suspended over the bell will be a small, light wooden paddle. The slightest breeze will tilt the paddle and ring the bell. There probably would not be one day in the year when the breeze would not be sufficient to ring the bell.

While the mountains are not too dangerous for travel, even the most experienced traveler sometimes will lose the trail in the mountains. About 11,000 feet above sea level and above timber line, heavy clouds sometimes totally obscure the sight of the traveler. Walking in the face of the wind with his head lowered, he is apt to lose his bearings.
